

## **About Nano Health Suite**

Nano Health Suite is an independent healthcare technology company, that keenly focuses on the insights, accelerates and innovates the transformation of healthcare system in more than 33 countries worldwide.

Nano Health suite provides the core capabilities to interact and integrate secured devices and optimize the business operations in healthcare industry. It provides its customers the real-time and historic insights of their associated assets and systemizes several tasks.

### **“An Inspiring Suite towards an Improved healthcare system”**

Nano Health Suite being at the core position of healthcare system makes us to serve as the facilitator for bigger collaboration on a way to consumer-centric care and value based care. We are the fundamental part of today's healthcare system that helps the healthcare system to not only function, but also to work in a smarter way.

### **“We are the Impetus of Value-based Healthcare system”**

Nano healthcare solutions work in conjunction with its customers as well as partners in order to speed up the journey towards enhanced and value-added lives and healthier communities.

### **“Ample Software based services for Healthcare Providers and Payers”**

We work in collaboration with healthcare providers and payers (doctors, pharmacies, hospitals) to put on ground-breaking data and analytical solutions alongside healthcare services to help develop an enhanced clinical decision making; abridge billing processes and payment collection; and make sure to provide an improved patient experience.

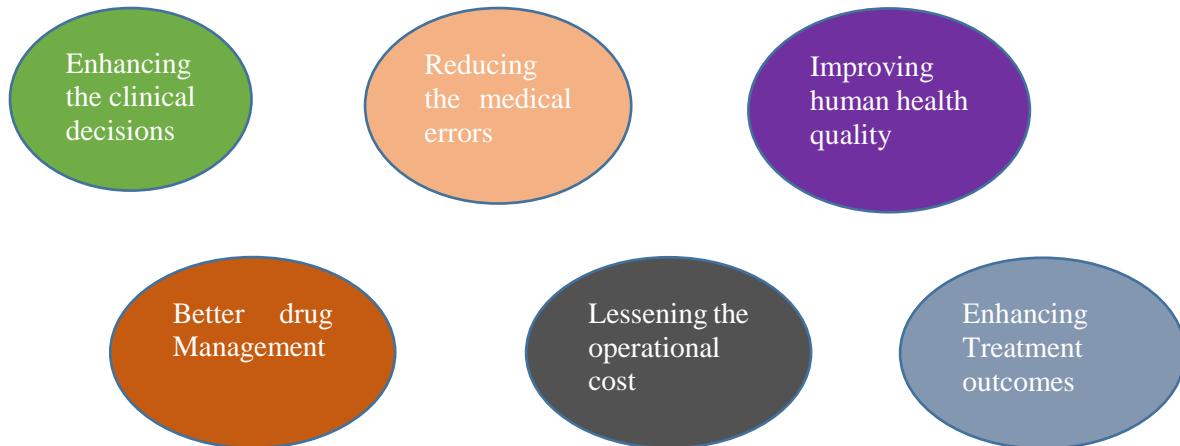

### **“Addressing Biggest Challenges in Healthcare System”**

We are building an efficient and robust healthcare system enabling better patient care, and excellent outcomes with wide ranging suite of softwares, tech-enabled services, actionable analytics as well as network solutions for both payers and providers.

### **“Implementation of Practical Innovations & Provision of Integrated Healthcare Solutions”**

Nano healthcare Suite broadly invest to implement practical healthcare innovations and to provide integrated healthcare solutions to its customers by improving its products, boosting up the transformation within healthcare industry and assisting our core customers to flourish.

### **“Our Key Challenges”**

### **“Nano Health Suite - Niche”**

We help our clients and customers to boost the proficiency, to effectively manage assets and adopt the innovations quickly in this digital era. The niche of Nano Health Suite that makes it to stand above other platforms are:

- Faster time to market
- Easy-to-use and intuitive UI
- Real time monitoring
- Multi-layer security

### **“Values are the root of our culture”**

Nano Healthcare Suite is recognized for its core values that are to

- Be swift
- Pursue purpose
- Embrace innovations, and
- Earn client's Trust

The above mentioned values are taken as the roots for Nano Healthcare suite culture that drives the interactions not only inside the suite but also with our clients.

### **“The Smart and Diligent healthcare platform”**

The coherent healthcare solutions, that our platform influences, have vast scale of administrative and financial network to arrange for integrated and data-rich solutions in order to fulfil the dynamic requirements of our providers, clients and payers. Nano health Suite provides the critical data at your fingertips to take data-driven healthcare decisions.
